## 3. Can files be posted as .PDF?

Yahoo group: houstonhams
Date: 2009-04-13 03:33:22 UTC
From: James Sitton
Topic: 3  Message: 3

Can files be posted as a .PDF ?
I am using Open Office and Open Office seems to mess up the format at times.
The mike 11 -13 lines in open office put every cell on a new line. like this:

MED Net 1 (5:00 a.m.)
Mike 11

444.600
Plus
71.9
Command Post
All starts to BP1

MED Net 2
Mike 12

145.410
Minus
100.0
Command Post
BP1 to BP 6

MED Net 3
Mike 13

146.800
Minus
100.0
Command Post BP 6 to La Grange

James, KD5JBT

## 4. 2009 Echo list.

Yahoo group: houstonhams
Date: 2009-04-13 03:59:52 UTC
From: Dave
Topic: 4  Message: 4

I was doing some comparisons and wanted to verify the following..

Sunday, Day 2
Bravo 21 is the same as Golf 21
Bravo 22 is the same as Golf 23
Bravo 23 is the same as Golf 22

If this is by design, then so be it, but looks suspect on the outside.

# 5. APRS settings

Yahoo group: houstonhams

Topic: 4  Message: 6

Probably done out of necessity as there are only so many repeaters available
for ride use.

From: James Sitton
Topic: 4  Message: 7

Golf = General net
Bravo = Backup
Mike = Med net

So I think his question was: how can the backup channels be the same as the main channels?

I don't know for sure, but last year MED nets had to go to the General channels Sunday after lunch. We had the 2 nets combined on the same channels. And it still worked pretty smooth.

But then again "it does look suspect", maybe someone else has a better answer.

# 13. Re: Frequency list ECHO

Yahoo group: houstonhams
Date: 2009-04-13 19:53:55 UTC
From: Mike Hardwick
Topic: 1  Message: 13

I know several people are asking about the duplicate frequencies on the new list and yes there are duplicates. Due to a new  connection scheme on IRLP, we will be doubling up on some repeaters. It has been too difficult in the past to acquire Internet connections at some of the locations for free or on limited bases. The current layout of frequencies may be a little diffucult to work with but this is what is available this year.

Hopefully in the future we will be able to have a better selection of repeaters with Internet connections.

Thanks,

Mike

# 21. APRS Configuration - Tx Rate and Mic-E

Yahoo group: houstonhams
Date: 2009-04-15 04:45:19 UTC
From: akakab
Topic: 21  Message: 21

Mike or whomever you have delegated APRS details to,

The ARPS section in the ECHO Freq List did not mention Transmission rates or use of Mic-E compression. I would expect the order of transmission priority would be: Med Vehicles, Staff, Motorcycles, SAG/Supply, Break Points. I think transmit rates of 2, 4, 5, 7, and 30 minutes would make sense, but feel free to suggest something else based on past experiences.

Mic-E Compression seems desirable to reduce bandwidth usage, but it eliminates position readibility from the transmitted data, which might affect later analysis of logs (if you do that sort of thing...).

Thanks,
Kyle
AE5IJ

# 22. Re: APRS Configuration - Tx Rate and Mic-E

From: f16joc
Topic: 21  Message: 22

Good point. I have already emailed and posted the APRS protocols for motorcycles. Since there were no specific times stated, I suggested that the motorcycles set their beacon rate to 3 minutes at highway speed, 5 minutes at low speed (typical when working the bicycles) and 30 minutes when stopped. I also asked them to review how to send a beacon manually in case they roll up on a scene requiring location being sent to the Command Post.

I am still learning about APRS. Do most(or all) of the repeaters we are using pull the Mic-E out and send it over to APRS. That is how it works correct? Also how do you know what repeaters are setup for Mic-E?
I will have to look in to this more.

# 25. Re: [HoustonHAMS] Re: APRS Configuration - Tx Rate and Mic-E

Yahoo group: houstonhams
Date: 2009-04-15 15:11:28 UTC
From: Josh Kaufman/ KE5FGC
Topic: 21  Message: 25

APRS beacons are NOT sent over the voice repeaters. For APRS use 144.390 simplex.
APRS uses Digipeaters which recieve and retransmit packets on the same frequency, that is why sometimes you will receive your own beacons.
If anyone needs help setting up UI-View, D700s or TinyTrak3s feel free to send me an e-mail or phone call and i will try to assist you.

You also may try e-mail Walter Holmes K5WH (k5wh@...) who is an APRS genius. He knows the D700, D7 and APRS+SA very well.

About the Mic-E, using it should not cause a problem with packet decoding or being digi'd but personally I don't use it.

# 30. Re: [HoustonHAMS] Information FOXTROT - changes noted

Yahoo group: houstonhams
Date: 2009-04-17 05:52:14 UTC
From: Dave
Topic: 1  Message: 30

Best I can tell after multiple line by line reviews is that the only changes of substance are of formatting. All the HAM freqs and even commercial channels appear unchanged with regards to freq, tone, offset and designation.

Noted changes:
Day 1 General Net Golf 12: comment "(5:30 am)" omitted
Day 1 Med Net 1 Mike 11: comment "(5:30 am)" omitted
Day 2 General Net Golf 21: Comment "(5:30 am)" omitted
Commercial radios (charlie series) designators split from single column into simplex and repeater columns

Can I respectfully suggest the following for the future.
1) highlight any changes or put a revision note in the comments on the houston ham's message announcing the file upload.
2) changes that do NOT involve a change in a frequency or tone, which require reprogramming something somewhere.. instead of advancing to the next phonetic.. from echo to foxtrot, serialize it as a derivative of the original document.. example Echo-One, Echo-Two.

i figured it out take a look at the Charlie Freqs the change is that the repeater freqs are set to the left and the somplex freqs are set to the right just under the repeater freqs thats the only change i see

Thanks

Is it at all possible to HIGHLIGHT the changes on the document when they
change from version to version, so that you dont have dozens of peeps
all doing the same thing - hunting the changes line by line?

# 38. Re: [HoustonHAMS] Information FOXTROT - changes noted

Yahoo group: houstonhams
Date: 2009-04-17 12:21:22 UTC
From: Mike Hardwick
Topic: 1  Message: 38

This is the last year for this style of frequency list. When this one was put together it was a last minute effort to fix a very poorly designed one from several years earlier. With so many frequencies and different locations to track, it it very difficult to make something that works for everybody.

On this last posting I thought I had sent something along that stated that there were only text and location changes but it went to another reflector. At 1 am it become a little difficult to keep track of what goes where. The idea of either a revision table or highlighted changes will be done on the next design.

If you are wondering why so late for the list it is because all the frequencies were just confirmed operational last night at 8:45 pm. There are still two repeaters that need to be changed to operate for the event but that will not affect the list.

Thanks,

Mike

# 40. Motorcycle Group Channel Listings

Yahoo group: houstonhams
Date: 2009-04-17 13:14:55 UTC
From: f16joc
Topic: 40  Message: 40

I just uploaded a Word document that is a chart of the frequencies for this weekend. It is the standard channelization scheme for the Motorcycle Marshals. They are grouped by simplex channesl, Saturday, Sunday, and backups.

For those adverse to saying "Channel Number" you can always say "Memory Number." This format is a little easier for me to read, and if Net Control tells all the motorcycles to go to Channel 22 they should all wind up on the same frequency.

# 41. BP MS150 Houston to Austin Bike Tour

Yahoo group: houstonhams
Date: 2009-04-18 03:46:45 UTC
From: Mike Hardwick
Topic: 41  Message: 41

Due to the heavy rains, Day 1 of the MS150 has been cancelled. Day 2 will be continue with a few changes. The first change is the start will be not be held at La Grange fairground but at the courthouse square in downtown La Grange. The ride will leave the square on Hwy 77 north out of La Grange to Farm-to-Market 153 and follow the route from that point. A decision will be made tomorrow if the route will split at Hwy 71 for the express route.

Once the riders are on the route, the ride will operate normally at all breakpoints and finish line. Some breakpoints may have some problems with water but they will be handled on a case-by-case basis.

Amatuer radio operators that are assigned to medical units, supply trucks, staff vehicles and SAGS will meet at the I10 and Hwy 6 Park and Ride at 2 pm to install equipment and coordinate transportation to La Grange.

If there are any questions, please call the Command Post at

Hi, Mike.
I know you're busy, but just want to verify the 2:00PM meeting time at the park&ride and not 12:00noon, as was previously announced.

Also, the command post number is 866-37... ????

see you there...

dale

The ride will leave the square on Hwy 77 north out of La Grange to Farm-to-Market 153 and follow the route from that point. A decision will be made tomorrow if the route will split at Hwy 71 for the express route.

Once the riders are on the route, the ride will operate normally at all breakpoints and finish line. Some breakpoints may have some problems with water but they will be handled on a case-by-case basis.

Amatuer radio operators that are assigned to medical units, supply trucks, staff vehicles and SAGS will meet at the I10 and Hwy 6 Park and Ride at 2 pm to install equipment and coordinate transportation to La Grange.

If there are any questions, please call the Command Post at 866-37... for more information.

Thanks,

Mike Hardwick, N5VCX

Hi, Mike.
I know you're busy, but just want to verify the 2:00PM meeting time at the park&ride and not 12:00noon, as was previously announced.

Also, the command post number is 866-37...  ????

see you there...

Due to the heavy rains, Day 1 of the MS150 has been cancelled. Day 2 will be continue with a few changes. The first change is the start will be not be held at La Grange fairground but at the courthouse square in downtown La Grange. The ride will leave the square on Hwy 77 north out of La Grange to Farm-to-Market 153 and follow the route from that point. A decision will be made tomorrow if the route will split at Hwy 71 for the express route.

Once the riders are on the route, the ride will operate normally at all breakpoints and finish line. Some breakpoints may have some problems with water but they will be handled on a case-by-case basis.

Amatuer radio operators that are assigned to medical units, supply trucks, staff vehicles and SAGS will meet at the I10 and Hwy 6 Park and Ride at 2 pm to install equipment and coordinate transportation to La Grange.

BP MS150 Houston to Austin Bike Tour

A GREAT SUCCESS EVEN WITH OVER 7 INCHES OF RAIN!!!

Even though the weather caused the cancellation of the first day of the Bike Tour, 11,633 riders showed up in La Grange to ride the 25th aniversary MS150 Houston to Austin Bike Tour. The riders started from the courthouse square in La Grange and went to Austin on the 2 normal routes. The wind slowed down a great deal of the riders but the last one crossed the finish line at 7:10 pm.

Over 125 amateur radio operators were used to provide communications for the event using 10 various VHF and UHF repeaters. APRS was used on twenty vehicles for tracking purposes to insure a fast medical response. The event communications was handled through the Houston Command Post as well as the Austin NET Control center. Again amateur radio provided a valuable service to worthy cause.

I want to thank everyone for their help and hard work for the 2009 BP MS150 Bike Tour. Without everyone's help and coordination, the event would have a very difficult time or worse taking care of the riders and event volunteers.

Thank you again for your hard work and help.

Mike Hardwick, N5VCX
Communications Coordinator
BP MS150 Houston to Austin
Bike Tour

Just a few facts for this years ride:

11,633 riders left La Grange for Austin
38 SAG vehicles (15 passenger vans)
53 school buses (SAGs)
12 box trucks (for SAGGING bicycles)
35 Intercity buses (for transport back to La Grange and Houston)
20 18 wheelers for bicycle transport
125 really tired ham radio communicators
2,500 really tired other volunteers

# 58. ARC Tour Du Rouge -- May 3

Yahoo group: houstonhams
Date: 2009-04-27 14:16:31 UTC
From: Charlie Matthew N0XFD
Topic: 58  Message: 58

First Annual Tour du Rouge Bike Ride (Yeah – meaning first time!)

The Houston Echo Society supports the American Red Cross and is supporting the Tour du Rouge Bike Ride.

The Tour du Rouge Bike Ride is a fund raiser for the American Red Cross and is scheduled to start on SUNDAY, MAY 3, 2009 from Humble, TX Civic Center and will ultimately end in New Orleans, LA.

The portion of the ride that the Houston Echo Society is providing communications and some logistics support is the portion between the Houston area and Beaumont, TX.

WE ARE STILL LOOKING FOR ADDITIONAL HAMS TO SUPPORT COMMUNICATIONS FOR DAY 1 OF TOUR

Assignments will either be in a tour vehicle or one of the break points. Time commitment on Sunday would be 6am-->5pm or when released from your position.

If you can assist, please send an acknowledge back to either
Lee Gaspard, WA5QXE  -- wa5qxe@...
Charlie Matthew, N0XFD -- n0xfd@...

More details to follow.

# 64. Bridgeland Triathlon 7am Sunday, August 9th, 2009

Yahoo group: houstonhams
Date: 2009-08-08 23:33:53 UTC
From: Mike Hardwick
Topic: 59  Message: 64

Still needing 10 operators for the Bridgeland Triathlon which will be held at Bridgeland Activity Center on 16902 Bridgeland Landing. Bridgeland Landing is off of Fry road, 2 miles south of Hwy 290. Operators need to meet at Denny's on FM1960 just north of Hwy 290 at 4:30 am for maps and final assignments. Talk-in and event frequency will be 444.075 MHz, plus offset, 103.5 tone.
If you have any questions, please feel free to call me a 713-826-6917.

Mike Hardwick

# 77. 2010 CB&I Triathlon in The Woodlands 1st of May (Saturday) Morning

Yahoo group: houstonhams
Date: 2010-04-03 14:28:35 UTC
From: peter belbin
Topic: 77  Message: 77

Hello everyone!

Please consider coming to The Woodlands 1st of May to help support the 2010 CB&I Triathlon.

I’m the amateur radio communications team director this year, and we really need help.

There will be over 1000 participants riding and running within roadways here in The Woodlands, and we’ve been tasked with taking up positions on the course (stationary) so that we can be the eyes and ears in the case of any emergency medical or transport needs that participants have.

This event is essentially a ‘half’ triathlon, so it’s considered a ‘sprint’ event, and will be over and done with, I expect, by about lunch time.

For those that do help, there will be free food and refreshments available for your enjoyment, after the last rider has gone past your station.

Please go to http://www.woodlands-event-comms.info to register to help. I set up the web site as a way to get information out and available, and to allow operators to sign up.

Please feel free to email me at pbelbin@... or call me at 936-520-3884.

73’s

Peter Belbin

# 79. For sale: Talksafe bluetooth adapter for Icom/Kenwood

Yahoo group: houstonhams
Date: 2010-04-04 22:42:14 UTC
From: Dave
Topic: 79  Message: 79

Another sale offer from Dave from the MS150 motorcycle marshals.

I have a Talksafe bluetooth adapter I bought and used for last years ride, that was tied to my Icom 2720. This bluetooth lets you rove the grounds and not be tied to your radio tent, nor be dependent on a cross band repeater and handheld.

http://www.rpf-comms.com/about_talksafe_8.html

In my case I used it in a motorcycle borne installation and when dismounted from the bike I was able to hear comms over 150 feet from the radio, and with certain headsets was able to key up the radio remotely. Depending on your bluetooth device you may or may not be able to key up wirelessly but you will hear audio continuously. A remote PTT may be needed, or in the case of the 2720, just use the hand mic when near the radio.

This year I have a new bike, hardwired intercom, hardwired helmet and integrated my Kenwood into the mix, so I no longer have any use for this fully functional device.

It comes with patch cables for the Icom 2720 (and other compatible mic cord plugs) and the Kenwood TM-D700/710 series. Other harnesses available from manufacturer.

Sold new for $200.

Yours for $100.

David

# 81. APRS on your Iphone.

Yahoo group: houstonhams
Date: 2010-04-08 00:37:32 UTC
From: Dave
Topic: 81  Message: 81

This may be of interest to the mobile ham operators/rover crews who will have a HAM operator on board, and has at least one Iphone amongst the assigned crew.. This is an unofficial communication and not sanctioned by the leadership of the MS150 organization.

One of my fellow motorcycle marshals discovered an app for the Iphone that mimics a Ham Radio APRS beacon.

The product is called "IBCNU" and costs $2. Its intended to interface with the web portion of APRS. It does not get transmitted over the APRS frequency but does show up on web based map programs such as findU and APRS.fi. If you put your tactical call sign (med #) in the call sign block, dont forget to put a valid ham license operators call sign in the "message" block.

I performed a partial route survey this afternoon with the motorcycle, with the phone in a windshield pouch and based on what I saw on previous years, the application and its datalink are superior to actual APRS beacons along the territory I surveyed.

My track is visible at
http://aprs.fi/?call=MSMOT9-9&mt=m&z=12&timerange=604800
<http://aprs.fi/?call=MSMOT9-9&mt=m&z=12&timerange=604800>.

I had spacing set at 2000 meters from Stubbs HD/Gulfgate outbound to Columbus. OFF from Columbus to La Grange start/finish, 1000 meter spacing along the south route to Smithville, into the park and thence to Bastrop then back home along 71. There are a few dropped spots, but still the coverage is superior to what I've had with real APRS. I also had the phone plugged in to remain charged, and the screensaver disabled, so that the phone would continue to beacon unattended.

Evaluate and use at your own discretion
Dave Staten

# 85. Re: APRS on your Iphone.

Yahoo group: houstonhams
Date: 2010-04-10 16:42:09 UTC
From: akakab
Topic: 81  Message: 85

The MS150 Communications Committee is happy to have folks try out the various APRS apps on the IPhone if you so choose. However, in order to keep our event map from becoming too cumbersome to use, I have a few requests:

1) All APRS users (whether via RF on 144.390 or via IPhone) should coordinate with the Houston command post to receive your identifier. We've come up with a naming system to help us keep track of different types of vehicles on the course. If you make up your own identifier, you may not be recogonized by the software filters and your position will not be displayed on the command post map.

2) As with the RF version of APRS, I would like to request that the operators using the IPhone app select a position reporting update rate that is "responsible". Since this is the first year such tracking applications will be used, there is some concern that a high update rate could bog down command post mapping software. Since it sounds like metric units were used to configure the App, I would recommend no less than 3km between tracking points. While knowing where every tracker is within 10 ft would be great, I don't beleive we have the software available to handle that much load. (Nor does that level of detail add significant benefit for an event of this size).

If you have any questions, please contact me at kyle.a.brewer at gmail.com.

Please be advised that there is another iPhone APRS app call OpenAPRS for iPhone. This is the app I have loaded on my phone. It costs $3.

One difference is that it beacons by time, not distance. Default time is 2 minutes but that can be increased. If there is a way to beacon by distance I have yet to find that feature.

Also, since ICBNU always entry of a tactical call as well as your call-sign, I'm thinking that the ICBNU app may be superior (and cheaper) than the OpenAPRS app.

I will download and test both.

I suspect no frequency list has been released as yet to avoid having to go through several versions before the event.

I am hopefull that information regarding the traditional pre-event meetings will be made available here and elsewhere sometime today. The freq list, ect to be made available then or soon there after.

Waiting intently....

Program it with the freqs that were used last year and you should have most of the work done. Normally most of the frequencies are the same ... the tactical names and uses for the freqs might change, but there are only so many repeater systems available.

Rather than have dozens of people reinvent the wheel, I will post several programming files with the 2010 frequency list CHARLIE.. courtesy of the Motorcycle Marshals.

Since the frequencies have designated channel numbers, promoting standardization, it made building the files straightforward.

Download and use the appropriate files for you radio..if you want.

# 103. possible aprs program for blackberry users

Yahoo group: houstonhams
Date: 2010-04-14 22:39:21 UTC
From: Chris Mann
Topic: 103  Message: 103

Hello all,

I have been searching high and low for an aprs program for blackberry and remember seeing a post about the iphone aprs applications on here and thought I would post what I had found for blackberry ( and I am not sure if it will work on any other phones.)

I found one that was not totally developed..MGMAPS..and it has bugs, but I have been able to get it to work to post my location to the aprs-is stream and can see it on aprs.fi

Here is the link.....

http://wap.mgmaps.com/12/index-all.html#12_aprs

I used the "jad" download...not sure what the difference with the "jar".
version.

maybe someone smarter than me on here can make it totally work. I did check the developers forum on the web site and I don't think that they ever finished the development of this program for use with APRS.

couple of things I have noticed....

1. I loaded version 1.28.06 it appears that it does not render the maps properly. I was able to program my callsign into it and get it to send the phones GPS data to aprs-is.

2. I had to enable my gps mapping program as well to get the gps working as it seems that the mgmaps program will not maintain a constant connection to the gps. I am not sure if that is a phone programming issue or a bug in the program.

3. it seems that if my phone loses its connection with the satellites that the mgmaps program goes into "nap" mode. I had to open up my gps map program and make sure it had a satellite lock and then the mgmaps program would see that gps data and resume sending that data to aprs-is.

So, anyway the call sign I used in the phone was KD5VXP-10 if you want to see my raw data stream.

Hope that helps the non- iphone folks a little.

73's

Chris Mann

# 106. Please support the 2010 CB&I Triathlon in The Woodlands this 1st of May.

Yahoo group: houstonhams
Date: 2010-04-20 13:54:13 UTC
From: peter belbin
Topic: 106  Message: 106

Please do consider supporting the 2010 CB&I Triathlon in The Woodlands this 1st of May (Saturday).

We really need help!!

We currently have a need for 35 operators to work this event.

The primary task is that of being situated stationary at an assigned location on the course, and keeping an eye out for any emergency needs.

You'll need to be on-station at around 6:45AM and be available until the last rider goes by (up to around 10AM or so, we think).

We are monitoring the Bike Ride, and it's only a 15 mile ride.

The Bike Ride portion of the event is immediately after the swim.

If you can help, please visit: http://www.woodlands-event-comms.info and register.

I have set up this web site for the purpose of supporting this event.

You'll need to have a 2 meter transceiver (hand-held or mobile) to work this event.

73's

Peter Belbin

# 109. Any other public service events?

Yahoo group: houstonhams
Date: 2010-04-27 15:19:44 UTC
From: Michael
Topic: 109  Message: 109

Hi,

I'm the activity director from the Katy Amateur Radio Society (KARS). I've been using the events here to distribute to our club for the past several months, but the list I had ended after the MS150. I haven't seen any updates, and I'm looking for more events to add to our calendar. Does anyone have such a list? BVARC's stopped after the MS150 also.

Thanks,
Michael/N5TGL

Mark,

I know of these events coming up, there is the CB&I Triathlon this Saturday, they are still looking for volunteers. Like most of the Triathlons it is an early start but also an early finish. You will be on your way home no later than noon.

Peter Belbin pbelbin@... is the contact for the CB&I. I am the contact for the other three events on this list. Sid Sherwood n5zkd@.... I am sure there will be more but these are the only ones I know of at this time.

Greetings Michael,
I am the safety chair for the American Diabeties Association Tour De Cure bicycle ride happening this fall. Game day is Sept 25, 2010, a Saturday and I would love to have enough HAM operators to staff the 7 breakpoints as well as the command post at Katy Mills. Folks who are interested in running in a SAG vehicle, we have the vehicles being provided this year (4 door pickups), and would entertain the idea of HAM qualified SAG drivers with handheld or portable mobile rigs and magnetic/suction mount antennae.

Its a one day event, wraps up around 3p at the latest, and expecting 2500-3000 cyclists for the 2nd annual ride.

David Staten
K5EFD
Safety Chair and lead Motorcycle Marshal for the event.

David --

You may put me down for a ham SAG driver, if you need one. Having just completed the MS150, I have the necessary gear for this role.

# 115. 2010 CB&I Triathlon in The Woodlands May 1st (This Saturday)

Yahoo group: houstonhams
Date: 2010-04-29 13:35:40 UTC
From: peter belbin
Topic: 115  Message: 115

The 2010 CB&I Triathlon is being run in The Woodlands this Saturday morning.

For those that might still be fence-sitting, there are still a small handful of stations yet to have operators assigned to them, which, we'd be grateful to be able to fill.

There's free food and drink (including the alcoholic type) for those that help.

I have created a web site with information and maps for this event.

Please visit http://www.woodlands-event-comms.info to find out more about this event and to register on-line.

The task is easy - man a station on the bike course, keep an eye out for anyone in trouble, and, for the lead male, female and turtle (last rider).

You'll need to plan on being on-station at around 6:30AM.

This is a sprint event, and it's expected to be totally wrapped up by noon. Depending on where your station is, it is possible to be done as early as 10am.

In order to work this event, you'll minimally have a 2 meter mobile or hand-held, and if you have 70cm capability, that might be useful too.

Did I mention there's free food and drink (including the alcoholic type) for those that help?

All the best,

Peter Belbin

# 119. 10 Mile Run in The Woodlands 9th of October Needs Operators

Yahoo group: houstonhams
Date: 2010-08-04 11:55:43 UTC
From: peter belbin
Topic: 119  Message: 119

The event is called '10 for Texas' and it's a 10 mile Run that needs operators to help provide eyeball coverage of the course to assist in making sure participants get assistance fast if it's needed.

Please visit http://www.woodlands-event-comms.info/10forTexas/ for more info, and to sign up.

There will be Tee-Shirts for those that get signed up early, and, food afterwards, including alcoholic beverage if you like. Yes! Free Beer!

You can email me at ke5stl@... if you have questions.

All the Best,

Peter Belbin

# 122. HAM Support - Red Cross Ramble - 10/30

Yahoo group: houstonhams
Date: 2010-10-21 13:49:54 UTC
From: Charlie Matthew N0XFD
Topic: 122  Message: 122

```
Red Cross Ramble Bike Ride
         October 30, 2010

Amateur Radio Operator Support Needed

What: Fundraiser Bike Tour for the Greater Houston & Guff Area - American Red
Cross Chapters
Where: George Ranch and surrounding areas (south / southeast of Houston)
When: 6am-4pm

We are seeking additional Amature Radio Operators (ARO) to support the
communication needs of this event. ARO will support the following positions
during this event:
7 SAG Vehicles (riding in the vehicle)
4 Support Vehicles
10 Break Points
Net Control at Start/Finish
Comm Room at Red Cross

General Event Schedule:
5:15 AM -- Initial Ham Meeting / Breakfast (on your own)
                (Denny's Hwy 59 / Hwy 36 in Rosenburg)
6:00 AM -- Meet up at Start / Finish -or- at your assigned break point location
6:30 AM -- Net Control Begins Checkins
8:00 AM -- Bike Ride Start
4:00 PM -- Course Closes / Ride Ends
*some positions will be released earlier in the day

Equipment
AROs should be able to communicate on 2 Meter FM from an HT or from a Mobile
Radio setup in their vehicle or the vehicle they are assigned to. If you are a
new ham and do not yet have your own radio it may be possible to loan you one
for the event. Please contact Charlie Matthew N0XFD for additional information
regarding this.

Interested ARO's should contact:
Charlie Matthew - N0XFD at n0xfd@... 713-498-9802

Course Map Link - HERE
Ride Web Page Link - HERE
Google Map of Course (DRAFT-NOT FINAL) - HERE

More detailed information will be shared mid next week.

# 127. Re: [HoustonHAMS] Volunteers needed... ONURLEFT Duathlon, November 14th George Bush Park

Yahoo group: houstonhams
Date: 2010-11-01 15:08:49 UTC
From: dwayne@redhonda.org
Topic: 123  Message: 127

Sid,
Can we use Mike's trailer again like we did for the other triathalon? I would like to see it used more now that it is road ready.

Dwayne

Sorry folks,
I should have sent this direct to Sid. Opps on my part.

# 129. Independence Ride, November 13th.

Yahoo group: houstonhams
Date: 2010-11-05 03:15:36 UTC
From: n5zkd
Topic: 129  Message: 129

Yet one more event in November needs our support.
The Independence Ride in Wallis. It is a ride in support of disabled veterans through the Independence Fund. Certainly a worthy cause.
If you can help with this event please contact Jim Mayes 281 622 6573 or jmayes777@....

We certainly need to support our veterans whenever possible.

For more info.

http://www.wallisride.com/

Thank you.

# 131. 2011 BP MS150 Signup Info

Yahoo group: houstonhams
Date: 2011-03-20 22:58:42 UTC
From: Charlie Matthew N0XFD
Topic: 131  Message: 131

It is getting to be that time again!

2011 BP MS150
APRIL 16-17, 2011
Ham Radio Operator
Information / Sign Up

http://bpms150.n0xfd.com

Come join the Ham Radio fun that is the BP MS150. Participate in providing communication support for one of the largest MS150 bike tours in the United States. Many volunteer assignments are available in a wide range of areas. Please check out the website (link above) for additional information.

The website will have all the information you need to know about volunteering as a Ham Radio Operator for this event. Ham Radio Communication information will be disseminated through this website as well as through e-mail for those who have filled out the web sign up form.

All Ham Radio Operators who will be volunteering for the 2011 BP MS150 are asked to fill out the web sign up form (on the above site under 'How to Volunteer'. Even if you will be primarily volunteering in a different function (i.e. SAG Driver, Motorcycle Marshall, etc.) we want you to fill the Ham Sign up From out. The form is being used to gather all of our Ham Radio Operators information so that we may better communicate updates and meeting information to those who will be volunteering this year. Please see the additional information on the website.

It is requested that this information be passed on or posted to other interested parties and websites.

-Charlie N0XFD

# 132. 2011 CB&I Triathlon in The Woodlands

Yahoo group: houstonhams
Date: 2011-03-21 13:26:26 UTC
From: peter_belbin
Topic: 132  Message: 132

It's time to sign up to support the CB&I Triathlon in The Woodlands, running Saturday, the 7th of May, from around 6:30am until 12 noon at the latest.

Please visit http://www.woodlands-event-comms.info/cbi/ for information and to register to support the event.

We're looking for around 60 operators at least, for this event.

Primarily we need operators with HT or Mobile radios that can take up positions on the course and observe participants, keeping a special watch for any need for medical or other assistance.

Food, Drink for everyone, and, for those that register sooner rather than later, a Tee-Shirt in your requested size!

Please assist in getting the word out by posting this information on appropriate web sites, email distros, and mentioning it at meetings and nets.

Peter Belbin KE5STL
CB&I Triathlon Amateur Radio Course Monitor Coordinator.

Charlie --

I have some more feedback for you regarding the "form"...

It would be awesome if the form emailed your input back to the submitter so
that you have a copy of what you entered.

# 134. 2011 Ironman Texas needs amateur radio operators

Yahoo group: houstonhams
Date: 2011-05-11 12:34:09 UTC
From: peter_belbin
Topic: 134  Message: 134

Appologies for the late notice, but, after having been told that we are not needed, I'm now told we are needed!! (surprise!!)

If you are able to help, please go to http://www.woodlands-event-comms.info/ironman/

It is being run on Saturday the 21st of May.

We are being asked to assist with communications within the portion (about 15 miles) of the bike course that runs through the Sam Houston National Forest.

Please see the web site above for more details.

Register at the site by providing all of the requested information and indicating what type of equipment you will have available.

Your help is much appreciated!

Best Regards,
Peter Belbin KE5STL

# 135. 2011 '10 for Texas' in The Woodlands Saturday 8th of October

Yahoo group: houstonhams
Date: 2011-08-19 04:22:09 UTC
From: peter_belbin
Topic: 135  Message: 135

Saturday the 8th of October, early start, expect release by 10:30 or so.

http://www.woodlands-event-comms.info for more information and to register to help.

The Woodlands Township really appreciates us helping, and helps give us opportunities to increase the visibility of Amateur Radio in the community.

Free food & drink (and volunteer tee-shirt) for those that help.

If you can help, please visit the web site and sign up.

All the Best

Peter Belbin KE5STL

# 136. Bike Around The Bay - Ham Operator Assistance Needed

Yahoo group: houstonhams
Date: 2011-10-06 17:53:51 UTC
From: Alfred Perez
Topic: 136  Message: 136

The Bike Around The Bay public service team is needing Ham radio assistance on both Saturday and Sunday for this weekend Oct 8 & 9th.

I know that many of you have signed up for the CLARC supported USA 10 Miler on Sunday. Thanks! I just spoke to Curt Tallman with CLARC and he believes the CLARC event is pretty well staffed at this time. Could you assist the BATB on Saturday or Sunday?

If you can assist on this Saturday, Sunday or both with the Bike Around The Bay I'm sure your assistance would be greatly appreciated.

Please contact Rick Broussard at n5kjn@... as soon as possible and let him know if you can help.

Thank You in advance for your support.

RED CROSS RAMBLE
Sunday - Oct. 30th
Looking for Additional Operators

The Red Cross Ramble is coming up on Sunday, October 30th. This is the 2nd year of the ride and the Houston ECHO Society is again supporting the communications effort.

There are still a few open positions for the event to include:

* Comm Rm at the Red Cross Chapter (2 spots open)
* George Ranch (1 spot open)

* Rest Stops (3 spots open)
* Net Control (at George Ranch)If you are available to assist please see the sign up link on rcrhams.n0xfd.com or e-mail n0xfd@... directly.

# 144. CERT Rodeo 2012

Yahoo group: houstonhams
Date: 2012-01-13 14:49:43 UTC
From: Alfred Perez
Topic: 144  Message: 144

The Harris County CERT Rodeo is an event where CERT teams compete and test their skills they've learned against other teams. This coming rodeo will be held on February 11, 2012. This event is being held at the Harris County Fire Marshall's Office at 2318 Atascocita Road in Humble, Texas 77396<http://g.co/maps/mpds3>
.

We seeking radio operators for this event. We'd like to hear back from all of you if you participated last year and would be willing to volunteer again this year. If you have not volunteered before we'd really appreciate your assistance this year. T his is a good chance to show off what we can do "in the field" and CERT folks always really appreciate the effort we put into this each year.

We had a great group last year, everyone appreciated the great job everyone did. We could have used a few more folks to help relieve operators. We'll have 37 operator positions but we also need some relief operators, and some positions will require more than one radio operator. With half day volunteers, that number will go up so quite a bit of additional help is needed.

It's an all day event, but we can accommodate ½ day schedules if needed. The event is on one location over a wide area, so a handheld, headset and spare batteries is all that will be needed for all but the net control station.

Some positions will not require a lot of physical exertion and some will require a lot of walking. We have created a simple questionnaire to send to the volunteers who respond to ask about their physical abilities, any CERT training and specific interest they may have for positions, etc.

There are just a couple changes from last year: there is a new position requiring three additional radio operators, and if you are assigned to work one of the ten "event stations" we are requesting that you have (and use) a headset of some sort to keep the radio traffic from interfering with the actual event that is going on. This is an all day event, but if you are only available for morning or afternoon we would love to have you and will plan accordingly. For those who are not familiar with the event, all you need is an HT and backup batteries, and a headset if working an event station.

This is being sent to many of the club mailing lists as well as directly to a number of hams. Please forgive us if you get this multiple times as we have a several distribution lists and you might be on more than one. Please pass this information on to any amateur radio related e-mail reflectors you may belong to and at any amateur radio related meetings so we can get

plenty of volunteers. Please include the date and my contact information on to your members. If you could put "CERT Rodeo 2012" in the subject line and cc perez.alfred@...

that will help us as well.

Thanks for taking the time to read through this and for giving this some serious thought. We're look forward to hearing back from lots of you.

73, and hope to hear back from you!

Planing or interested in signing up for the 2012 BP MS150?
http://bpms150hams.org

Checkout the web signup link on the right site of the page of the above website.

The 2012 BP MS150 is April 21-22
Many positions to fill this year!

A direct link to the signup form is available HERE

All communications volunteers (except motorcycle marshals) should fill
out the web form. We want to make sure we are identifying everyone who
is planing on participating this year so we can keep you informed about
the event. Additional information about the event and possible
assignments within communications is available at the
http://bpms150hams.org website.

David-

We will be setting up gotomeeting or a conference call for the two pre-event meetings once we confirm those dates. This is to make it easier for everyone to attend the meeting. The meetings are not mandatory though, but will get you better prepared. More information to come.

# 151. Urgent Assistance Needed MS-150

Yahoo group: houstonhams
Date: 2012-04-16 22:44:43 UTC
From: Alfred Perez
Topic: 151  Message: 151

Can you help?

We are urgently in need of some help this weekend April 21& 22nd for the MS-150. These are open positions that need to be filled with qualified radio operators.

This is an important public service and the best opportunity you will ever get to test your readiness to support a real emergency operation.

Break Point SAT 1A SAG Stop (D14 SW) has no operators, should have at least 2 (1 day)
(Tom Shaw K5LOT is the amateur at this site)

Break Point SAT 2A SAG Stop (D14 SW) has no operators, should have at least 2 (1 day)
(Gerald Mueller KF5EYC is the amateur at this site)

Amateur for Sat Lunch in Belleville (1 day)
(Art Caprio KE5OBY is handling the SAG Stop with Chuck Mountfort N5GCQ)

Supply 2 needs a 2 day operator

Please respond to "Jeff WalterKE5FGA " <jawalter6@...> with a cc to "Charlie Matthews N0XFD" ,<n0xfd@...> and "George Fletcher AD5CQ" <gfletcher5@...>

Thanks,

Alfred Perez

Just a suggestion:
We don't really need another ham at lunch either day to help Chuck Mountfort at my sag stop. He has Ray Evans a ham & 2 non ham volunteers.
You can re allocate Art on the site or move him to cover Sat 1A or 2A.

# 153. Hams Needed 5/12

Yahoo group: houstonhams
Date: 2012-05-07 17:12:01 UTC
From: Alfred Perez
Topic: 153  Message: 153

More radio operators are need for the Bay Area Arthritis Walk on Saturday, May 12th 2012.

This 1 mile/5K event has been held in the Clear Lake area for the last six years but this is first year that CLARC will be providing radio communications support.

We'd ask operators to meet at the park at 8:00am and then be in position by 8:30am. The walk kicks off at 9:00am and is anticipated to end no later than 12:00pm. If you can support this event please contact Alfred Perez, N5VEV with your callsign and shirt size via email at perez.alfred@...

For more information see the CLARC website www.clarc.org and then the Public Service Events page.

From: Alfred Perez
Topic: 154  Message: 154

The 2012 Ironman Texas is Saturday, May 19th.

Amateur Radio operators have been asked to assist in providing communications and course monitor functions for the northern portion of the 112 mile bike course.

This involves the south west portion of the Sam Houston National Forest, and then westward beyond Richards before heading back southward to The Woodlands.

The reason for our involvement is due to the patchy cellular coverage in that area.

If you are somewhat near the area in question, and are available, your participation is most welcome.

Please visit http://www.woodlands -event-comms.info/memorial-hermann-ironman-texas for more information, and if you're available, to sign up.

Note: we are primarily using 2m for this event. Mobile is required, one way or another – ie: either directly, or by CBR extension to your HT.

Having APRS is an added bonus.

The assignment is expected to be from 8AM until approximately 2PM.

Any questions, please contact me at ke5stl@....

Best Regards,

Peter Belbin KE5STL
Ke5stl@...

Monday - June 11th @ 7:00 PM
Houston Red Cross Building Complex
2700 S.W. Freeway, Houston, TX 77098
(just west of Kiby Dr / Hwy 59)

PRESENTATION
Special Guest - Dr. Jim Siebert - FOX 26 Chief Meteorologist
Dr. Siebert's presentation will focus on some of the mistakes people make when getting prepared for hurricanes and how we should approach our preparedness as emergency preparedness and not just for hurricanes. Comments on the upcoming summer will also be included.

*Note - Presentation will start at 7:00pm - Businness meeting will commence after the presentation.

PRE-MEETIN-EATIN
All are welcome to stop in for food and conversation before the meeting. We meet for dinner before the meeting at Goode Company Mexican Restaurant (S.W. corner of Kiby / Westpark). Most arrive from 5:30pm - 6:00pm, but come when you can. Come and join the gang if you want to come out early, feed your belly, tell stories & lies and otherwise pass a good time. Talk-in on 147.000 + T103.5.

# 160. 2013 CERT Rodeo

Yahoo group: houstonhams
Date: 2012-10-24 14:59:06 UTC
From: n5cas
Topic: 160  Message: 160

Please accept my apologies if you get this more than once, it are going to numerous e-mail lists.

On Saturday, February 9, 2013, the Harris County Citizens Corps will hold is Annual CERT Rodeo. The event is designed to give CERT members an opportunity to practice skills introduced in the CERT training and to meet CERT team members from across the state.

It's time to start thinking about the Harris County CERT Rodeo again!!!!

This event is a great chance for us amateur radio operators to also practice our skills: shadowing officials, working a Net Control Station, passing traffic from an event station, etc. Please mark the date on your calendar and plan to help us work this event, to show what we are capable of doing!

Also, as a side note, we will have a special event station set up to help spread the word of the Citizen Corps and CERT in particular to folks around the world. Our call sign will be W5C and should be listed in our trade magazines such as QST. So we are going to need even more operators than in previous years ☐ a few extra volunteers who can help with the special event station.

Each year we seem to improve our system, and would like to continue in this regard. There is a need for at least one Deputy Comm Leader to work with the Communications Chairman in helping to plan for the event so please contact Christine Smith, N5CAS at n5cas@...
<http://groups.yahoo.com/group/Brazoria_County_ARES/post?postID=FJwH4SD6\
1EMNtgqIGhgh0l_fYQPMWn8xHMNK3CYyUT5wzAM44CcDWTVhdvqouQLpVhPvku4_Yw3Zd_8>
if you would like to participate in this capacity. This person will be invited to attend our monthly meetings to keep up with the needs of the Chairman's and Committee members.

I will be sending further information to perspective communication volunteers as the event gets closer and hope you will plan to come operate with us for this event. If you would like to commit to working the event at this early date, that would be great also. You can send an email to Christine Smith also with this information. I will be starting a volunteer list as soon as the first commitment comes in, and numerous e-mails will be sent out closer to the event if it is too soon for you to determine your ability to commit at this time. I know it's early, but I wanted to make sure you get this marked on your calendar so you can schedule your other activities around this date.

Thanks for all your time and commitment to this great event, and hope to hear from you as the event gets nearer.

Sincerely, and 73,

Christine Smith, N5CAS

# 161. 2013 CERT Rodeo - February 9, 2013

Yahoo group: houstonhams
Date: 2013-01-12 18:00:39 UTC
From: n5cas
Topic: 161  Message: 161

Hello all,

In case you haven't gotten the word yet, the date for the 2013 Harris County CERT Rodeo is set for Saturday, February 9, 2012. As in previous years, this event is being held at the Harris County Fire & Sheriff's Training Academy at 2318 Atascocita Road in Humble, Texas 77396 and we have many positions that will need to be filled and we also need some relief operators, and some positions will require more than one radio operator.

Some positions will not require a lot of physical exertion and some will require a lot of walking. If you are assigned to work one of the ten "event stations" we are requesting that you have (and use) a headset of some sort to keep the radio traffic from interfering with the actual event that is going on. This is an all day event, but if you are only available for morning or afternoon we would love to have you and will plan accordingly. For those who are not familiar with the event, all you need is an HT and backup batteries, with a headset if working an event station. More information can be found at the website at: http://www.harriscountycitizencorps.com/news/certrodeo.asp

Please pass this information on to any amateur radio related e-mail reflectors you may belong to and at any amateur radio related meetings so we can get plenty of volunteers. This is a good chance to show off what we can do providing communications from fixed stations and shadowing officials during the event, and they always really appreciate the effort we put into this each year.

To volunteer, please send an e-mail to me at: n5cas@.... I will be responding to those who volunteer to get further information so please include your name and e-mail information. I will send you the volunteer form and liability release form, as well as determining your level of physical ability for scheduling purposes.

Thanks in advance for your support for this great event, and look forward to seeing everyone again this coming year!!

73,
Christine Smith, N5CAS
2013 CERT Rodeo Communications Chairman
ARRL ARES® STX District 1 Emergency Coordinator

PS ☐ If you receive this more than once, please accept my apologies as I am sending to a couple of e-mail "distribution lists" and you may be in more than one list.

# 162. URGENT -- Radio Operators Needed

# 163. CERT Rodeo - Ham Radio Operators Still Needed

Yahoo group: houstonhams
Date: 2013-02-04 02:37:15 UTC
From: Alfred Perez
Topic: 163  Message: 163

Thank you to everyone who as ready volunteered for this event. Additional radio operators *are still needed* for the CERT Rodeo 2013. The event is this Saturday, February 9th 2013.

We're seeking beginners and experienced operators. If you're new to all this, it's not a problem at all, we'll guide you though it. You do not have to be an ARES member to support this event. There are AM and PM shifts available. Most Hams choose to support both the morning and afternoon shifts. You may volunteer for just one shift.

The CERT Rodeo 2013 is a contest of skills for Community Emergency Response (CERT) teams though-out Texas to compete in. This competition can be one of the most interesting of all of the events we have the opportunity to support as Hams. Real helicopter landings/take offs, full-size derailed trains, collapsed structures, hazards materials events, burning buildings are just a few of the kinds of things you'll see and experience as a important part of this one day event.

If you have already volunteered, thank you! If you can support this event, please reply with your call-sign and contact details ASAP.

If you can pass this email on to other individual or ham groups who could assist with this event would be greatly appreciated.

*Why:* Volunteers still needed:
*What:* Harris County CERT Rodeo
*When:* February 9, 20137:00 AM – approx. 4:00 PM
*Where:* Harris County Fire & Sheriff’s Training Academy 2318 Atascocita Rd Humble, TX 77396

Subject: [HoustonHAMS] 2013 CERT Rodeo - February 9, 2013

?

Hello all,

In case you haven't gotten the word yet, the date for the 2013 Harris County CERT Rodeo is set for Saturday, February 9, 2012. As in previous years, this event is being held at the Harris County Fire & Sheriff's Training Academy at 2318 Atascocita Road in Humble, Texas 77396 and we have many positions that will need to be filled and we also need some relief operators, and some positions will require more than one radio operator.

Some positions will not require a lot of physical exertion and some will require a lot of walking. If you are assigned to work one of the ten "event stations" we are requesting that you have (and use) a headset of some sort to keep the radio traffic from interfering with the actual event that is going on. This is an all day event, but if you are only available for morning or afternoon we would love to have you and will plan accordingly. For those who are not familiar with the event, all you need is an HT and backup batteries, with a headset if working an event station. More information can be found at the website at: http://www.harriscountycitizencorps.com/news/certrodeo.asp

Please pass this information on to any amateur radio related e-mail reflectors you may belong to and at any amateur radio related meetings so we can get plenty of volunteers. This is a good chance to show off what we can do providing communications from fixed stations and shadowing officials during the event, and they always really appreciate the effort we put into this each year.

To volunteer, please send an e-mail to me at: n5cas@.... I will be responding to those who volunteer to get further information so please include your name and e-mail information. I will send you the volunteer form and liability release form, as well as determining your level of physical ability for scheduling purposes.

Thanks in advance for your support for this great event, and look forward to seeing everyone again this coming year!!

73,
Christine Smith, N5CAS
2013 CERT Rodeo Communications Chairman
ARRL ARES® STX District 1 Emergency Coordinator

PS ☐ If you receive this more than once, please accept my apologies as I am sending to a couple of e-mail "distribution lists" and you may be in more than one list.

# 165. Re: Free 300/400 at GCSI - May

Yahoo group: houstonhams
Date: 2013-03-06 18:46:55 UTC
From: Alfred Perez
Topic: 165  Message: 165

For any hams needing the ICS 300/400 series classes, they are available this May.

The classes are free and are open to any ham in the region. These classes are a little difficult to come by and seating is filling up quickly, so if you need them, I'd register for them on preparingtexas.org asap. Follow the links in the email below.

Feel to pass this on to anyone who might be interested.

# 167. BP MS150 April 20-21 - Info

Yahoo group: houstonhams
Date: 2013-04-15 22:25:14 UTC
From: Charlie Matthew N0XFD
Topic: 167  Message: 167

Planning on participating in the BP MS150 Bike Tour this weekend?
Looking for information on how to participant? Frequency Lists? Assignment List?
The BP MS150 is one of the largest public service event opportunities each year that utilizes Amateur Radio to support a significant amount of communications for the event.
Check out the http://bpms150hams.org/ Website for additional information!
Live assignment list at: http://bpms150hams.org/assignments/assignment-detail/
(yellow are positions we are looking to fill still)
Information on the website will provide information on how to participate and get an assignment. If you already know what your assignment is, then we ask that you still fill in the ham intake sheet so we do not forgot about you.

*Save The Date:* Saturday, February 8, 2014 7a-5p

Hams are needed for one of the most interesting and dynamic public service
events in the Houston area.

This annual competition test the skills of CERT volunteers. They'll
participate in a series of events using the skills they learned in their
8-week training program; basic medical operations, search and rescue, fire
suppression, cribbing, scene size-up are some of the exciting team building
activities you'll see and communicate about.

A number of Ham radio positions are available to support the leadership of
the Harris County Citizen Corp in a variety of physical activity levels.

# 175. Training: Emergency Communications In A Zombie Apocalypse

Yahoo group: houstonhams
Date: 2014-09-05 15:10:20 UTC
From: perez.alfred
Topic: 175  Message: 175

*E**mergency Communications In A Zombie Apocalypse* - What Will You Do When The Cell Phones Go Out?

* This is an in-depth class based on the very well received presentation given at the Greater Houston Ha**mfest 2014.*

By now it should be clear to everyone that a Zombie Apocalypse (Z.A.) can happen at anytime. When the cell phones go out, how will you: Find shelter, food and water? Locate other survivors? Find weapons and ammo caches? Find out who's willing to swap lighters for fresh peaches. Keep informed of the movements of zombie hordes?

The answer of course is *Ham Radio!* This fun and interactive class takes a humorous look at how to prepare your communications for the coming Z.A. or any disaster.

- What are the best radios to have
- How to power your radio gear
- How you can get a zombie to pedal a stationary bike that has a generator attached forever
- If you're single, how to use your radio to find a non-infected date
- If you're married and have kids, how to keep your teen from dating a zombie
- Can your Ham radios skills be used to make a directed energy weapon out of stuff your likely to find lying around after a Z.A.? YES!
- What if the zombie hordes tear down your antenna? You'll learn how to build a backup emergency antenna out of just coax. You can even take your antenna home with you!

*Feel free to forward this to anyone who might be interested!*

*Class:* Emergency Communications In A Zombie Apocalypse
*Date:* Saturday, September 13th 2014
*Times:* 9:00am - 4:00pm with a 1 hour lunch break
*Location:* Westlake Volunteer Fire Department
*Address: *19636 Saums Road Houston, TX 77084
*Talk In:* 147.200(+)141.3 (Ham radio)
*GPS:* 29.800768, -95.716287

Saturday, February 7th, 2015.

Sign up today for one of the most interesting and dynamic Ham public service events in the Houston area.

This annual competition test the skills of CERT volunteers. They'll participate in a series of events using the skills they learned in their 8-week training program; basic medical operations, search and rescue, fire suppression, cribbing, scene size-up are some of the exciting team building activities you'll see and communicate about.

A number of Ham radio positions are available to support the leadership of the Harris County Citizen Corp in a variety of physical activity levels.

*Please forward this to anyone who may interested. If you can add it as traffic to your local weekly radio net, email reflector or club meeting it would be greatly appreciated.*

# 177. Seriously, We Need You!

Yahoo group: houstonhams
Date: 2015-09-22 14:42:28 UTC
From: Alfred Perez
Topic: 177  Message: 177

*You are urgently needed for a new public service opportunity: The 2015 Houston Run For Recovery and the Big Texas Rally for Recovery*

*If you can assist please signup today! New ha**ms are especially encouraged to join the fun!*
*“In this National Recovery month celebration, the faces of recovery will be present. We would like to have a greater Houston presence this year as we join our neighbors, leaders and families whose lives have been transformed through recovery,”*

Here are a few of the great reasons you should volunteer to provide communications for this important event:

*120 People Die Everyday Of A Drug Overdose In America*

*This event has not previously had Ham radio support and your assistance is desperately needed*

*We will be primarily supporting first aid communications** for the Harris County Medical Reserve Corps who are supporting the event*

*It's located in Downtown Houston and is easy to get to*

*Only an HT with a headset are reco**mmended** for this event*

*We have secured the use the KA5QDG 145.170 repeater which offers excellent coverage for this event.*

This event is just 8 days away: Sunday, September 27th, 2015. 6a-3p

This event has several activities that need your support. A 1K Kids Run, a 5K Fun Run And Walk to be followed by a rally around the reflecting pool at City Hall that will include celebrity speakers.

A number of Ham radio positions are available in a variety of physical activity levels.

*If you have already signed up great! Then please forward this*
*to anyone who may interested. If you can add it as traffic to your local weekly radio net, email reflector or club meeting it would be greatly appreciated.*

# 178. Stolen radio

Yahoo group: houstonhams
Date: 2016-02-26 15:58:45 UTC
From: cmsubowlermomdad@...
Topic: 178  Message: 178

Tuesday, a, s I said on the net last night, someone got into my car and stole my Icom 2200H, serial number 0534194. They also took my Garmin GPS unit, serial number 26N150009, and the monitor for my back-up camera. All was reported to the police, and I reported it to the HAR shop and to the local pawn shops.
Thanks for any help you may give in advance.

Raymond Williams KC5RQT

# 180. Get Your Ham Radio License In Just One Day

Yahoo group: houstonhams
Date: 2018-06-13 12:37:59 UTC
From: Alfred Perez
Topic: 180  Message: 180

*Get Your Ham Radio License In Just One Day!*

*Ham-In-A-Day*

*>>Forward this to anyone who may be interested<<*

This is the fastest, easiest and most convenient way to get your Ham Radio License. Everyone is invited to attend, family, friends, anyone. We recommend this method for those from 12 to 112 years old.

This isn't a class. It's guided study session: Six 45-minute periods spent reading sections of the FCC question pool, with hourly breaks and lunch. An F.C.C. authorized Ham Radio test session immediately follows the study session. Our pass rate is fantastic.
This is the most easiest and most efficient way to get your Ham radio license. We'll tell you how to study, and keep you doing it in an organized way. Then we give you the test as soon as you're finished.
It's a proven “winning formula.” Short term memory is the “secret” of the high success rate. All exam questions will be selected from the question pool you study during the session.

*NOTE: Registration is li**m**ited. This class is expected to fill very quickly *The Morse Code test is no longer required for any Amateur Radio license class. The only real requirement is a strong desire to get your ham license.
*What:* Ham-In-A-Day, Technician License

*Date:* Saturday 6/30/2018 Only one day is needed to pass and take your exam.
*Times: *8am - 4:45pm with a 30 min lunch break. VE testing session to follow beginning at 3:00p
*Where:* NW Houston. The exact location will be determined once we have a firm count of students.
*Cost:* $35
*Questions:* alfred@alfredjperez.com or 832-481-2999
*Requirements:* The only requirement is that you pre-register. No walk-ins.
*Open To:* Everyone and anyone, age 12+ who is interested
*Trainer:* Alfred Perez - N5VEV, EC-001, Extra, VE

*Registration is done in two easy steps:*

*Step 1) *You must register using this link:
https://goo.gl/forms/88rZ10jjXyTsDftn1

*Step 2) *You must pay for the class using the request for payment link that will be be sent to you immediately after registering.
